

**TABLE 2. General Statistics by Geographic Areas and Type of Operation:**

1963 and 1958-continued

Footnotes for Table 2-14B-Continued

<sup>1</sup> Represents the product indicated by the name of the industry or subindustry. (Industry totals for all stone therefore exceed the sum of the totals for the subindustries.) Net shipments represents gross shipments less stone received for dressing or crushing. For crushed or broken stone quarries in manufactures, represents gross shipments of stone plus production of stone for use in the same establishment in the manufacture of cement, lime, or other manufactured products.

<sup>2</sup> For the crushed and broken granite subindustry, excludes data for one establishment in Alaska with less than 5 employees and, for crushed limestone quarries in manufactures, excludes data for one quarry in Hawaii with 5 to 9 employees.

<sup>3</sup> For quarries in manufactures, number of production, development, and exploration workers was estimated from reported figures for man-hours. No data were obtained on other employees at such operations, hence, the same figures are shown for these operations for production, development, and exploration workers and for all employees.

<sup>4</sup> Includes the estimated value of stone produced and used in the same establishment in making cement, lime, ready-mixed concrete, and other manufactured products.

<sup>5</sup> Excludes data for crushed stone quarries in manufactures.

<sup>6</sup> Includes data for Mississippi, in which two establishments were operated in the crushed and broken stone industry, with a total of less than 5 employees, and one crushed stone quarry in manufactures, with 10 to 19 employees.

<sup>7</sup> Includes crushed and broken stone, n.e.c., produced as a secondary product in this subindustry.

<sup>8</sup> Figures for North Carolina are included with those for Florida.

<sup>9</sup> Excludes data for separately reported central offices and related facilities. These were not distributed by type of operation.

<sup>10</sup> Includes data for 3 underground quarries without preparation plants.

<sup>11</sup> Not shown since the cost of supplies, purchased fuels and electric energy, contract work, and purchased machinery installed exceeded capital expenditures.

<sup>12</sup> Data for one granite quarry in manufactures are included with those for stone, n.e.c., quarries in manufactures.

<sup>13</sup> Data for Middle Atlantic are included with those for New England.

<sup>14</sup> Excludes data for 2 quarries in Hawaii.

<sup>15</sup> Excludes data for 5 quarries in Hawaii.
